PORTFOLIO

https://my-portfolio-lilac-pi-21.vercel.app/

EXPERIENCE

Oz techwork, Lahore — *Sr. Mobile App developer.*

March 2025 - PRESENT

Applications: WiseWheels, WiseMarket

Worked on live projects where I implemented AI image generation, AI background remover and AI chatbot.

Implemented complete Order Processing module along with coupons and rewards redeem, payment gateways

(COD, Jazzcash, Bank Alfalah and Direct Bank Transfer).

Ecube, Lahore — React Native developer.

Oct 2023 - Feb 2025

Applications: 2bfluent, Pingle, Tailgate

Complete **Chat module** with **firebase** including media, voice notes, time stamps,
conversation screen, contacts screen.
Instagram Stories feature handled by gestures.
Feeds, Follow, following, block and report features.
Implemented OpenAI's API for AI-powered speaking practice.

Quaid Ventures, Lahore — *React Native Developer.*

Dec 2022 - Oct 2023

Applications: ERP handy, Gorex Customer, Gorex Merchant

Developed and maintained **ERP mobile application**, focusing on inventory
management, sales, and finance modules. Mapped Odoo's web portal into mobile App.
Integrated UI/UX designs into functional and user-friendly mobile applications.
Implemented location-based search functionality using Google Places API.
Developed interactive maps with custom markers, geolocation services, and route

optimization. Integrated Google Maps API for real-time location tracking and navigation features. Displayed saved routes to track vehicle's movement. Implimented language change functionality (localization) in **Gorex App** for the KSA region. Performed Geo-fencing in google maps.

Guardian Code, Sargodha — Junior *React Native Developer.*

May 2022 - sep 2022

Applications: Eat Routes

Developed custom components and implemented advanced navigation for mobile applications. Resolved responsiveness issues on live projects. APIs integration with Axios. Created first Application in TypeScript. Used responsiveness libraries.

SKILLS

Programming Languages: JavaScript, TypeScript

Frameworks & Libraries: React Native, React.js, Redux,Redux Toolkit, Next.js, Bootstrap

Mobile Development: iOS & Android Development, Cross-Platform Development

Databases: MySQL, Firebase, MongoDB

APIs & Integrations: RESTful APIs, GraphQL, Odoo APIs, Third-party SDKs (e.g.Maps, Social Media), AI integration.

Development Tools: Git, GitHub, GitLab, npm, Yarn, XCode, Gradle

UI/UX Design: Responsive Design, Material UX

Soft Skills: Problem-Solving, Collaboration, Time Management, Attention to Detail

EDUCATION

Punjab College, Sargodha — *FSc. pre Engineering*

2016 - 2017

UOS, Sargodha — *BSCS*

2018 - 2022

PROJECTS

Wisemarket— *Ecommerce*

An Ecommerce mobile App where I integrated open search, add to cart, coupons and redeem, checkout, COD,

Direct Bank Transfer and Jazzcash along with UI fixes and design..

[Wisewheels](#)— *Ecommerce*

An Automobile marketplace App where I integrated Add listing, AI image generation, AI chatbot and Car inspection along with UI fixes and design. I also persisted huge forms using redux for offline and low connectivity support.

Gorex v2— *Ecommerce*

With new design an optimization of V1 with the same features.

[Gorex Customer](#)— *Ecommerce*

Implemented location-based search functionality using Google Places API.
Developed interactive maps with custom markers, geolocation services, and route optimization. Integrated Google Maps API for real-time location tracking and navigation features.

[Gorex Merchant](#)— *Ecommerce*

Vendor side of Automobile services App where I designed and implemented listing vendor available services

[2bfluent](#)— *Learning*

Language learning AI based App where I implemented AI chatbot with OpenAI APIs along with animations and word games.

[Pingle](#)— *Social media*

A social media App where I integrated Instagram stories, feeds, Like, follow/unfollow and report functionalities. I also implemented a chat module with images and voice notes feature with firebase.

Tailgate— *Sports*

A sports App where I made a complete App from scratch in React native Expo. I created an amazing UI. Integrated Google and Apple maps to show events location. I also implemented group chat in this app.

ERP Handy

An ERP App where I mapped Odoos ERP system into a mobile app. I implemented graphs and calculations in this app.

LANGUAGES

English, Urdu and Punjabi
